SCOPE OF DIGITALIZATION IN LIBRARIES IN MODERN ERA: ENRICHMENT IN LEARNINGS

Dr. Sarala P. Nimbhorkar, Librarian, G. S. Gawande College, Umarkhed Distt. Yavatmal

Abstract

The researcher also focuses on the mindset of library experts in this modern environment. The researcher's conclusions are certainly based on four topics, which are: "identification of the growing age in university libraries", "mindset of librarians in the growing age", "technology compatibility of library experts" and "constraints in library implementation". growing age". This literature evaluate enables library specialists and librarians approximately the era utilized by libraries and additionally the limitations confronted through them. Furthermore, it increases consciousness of the demanding situations those new technology poses each for customers and for libraries. This evaluate article examines library records offerings on this context of the net surroundings. It gives an perception into the brand new technology that are turning into the want of the hour of each individual. Users have now known the fee of era and subsequently as a result their expectancies and needs are developing. The evaluation of the literature showcases that with the developing intervention of era, demanding situations associated with it additionally grows equally.

Keywords: Technology, library, growth, feature, developing, evaluation

Introduction

Technology is regularly associated with superior abilities to achieve certain results, overcome certain challenges, perform certain activities (Lan and Young, 1996). However, it is the responsibility of academic librarians to understand and understand their era, design their libraries according to the expectations of their users, and thus develop the necessary technical skills. With technology trends exploding, it is clear that librarians may not be able to accommodate all styles in their libraries. Therefore, they want to choose such technology to help them remember their users' login settings for a long time. However, the learning library wants to be the main center where self-openers want to be professional almost or within the document, living in a superior analysis institution at the forefront of technology. The purpose of this observation is to explore the era of several emerging libraries that are likely to be useful and excellent for university libraries. Although much research has been done on the growing age of university libraries, it should be noted that the discipline of library science and records science has made great efforts to improve knowledge about these growing ages.

Review of literature

Saibakumo (2021) long-term survival and help of educational libraries in a technological society is based on the growth and renewal of information supply. In educational libraries, technological trends have led libraries to adopt comprehensive, user-friendly and generational technologies. This apparent void seems to be filled by a new

generation. The study highlights the extent to which new technology is understood, adopted, preferred and equipped in Nigerian educational librarianship.

Significance of digital libraries

A virtual library, also known as an online library, online library, virtual archive or virtual toolkit, is a web-based database of virtual resources that may consist of text, images, audio, video, virtual documents or various virtual documents. mass media codecs or libraries accessible via the Internet. Objects may contain digitized content such as prints or photographs in addition to the originally produced virtual content material (such as word processing documents or social media posts). In addition to storing content, virtual libraries offer the ability to organize, search, and download content within a series. Unlike traditional or traditional libraries, a virtual library can be very sophisticated and contain all the modern and up-to-date information or resources that the average reader might need. Some publishers no longer need to manually send an updated model of their books, articles, blogs or different content assets, because virtual libraries usually provide an updated model of each e-book as quickly as it. is . #039; letters have been published online so that every reader can easily access their most popular e-book. With quick payment generation development, maximum readers choose discount copies or virtual model in their books because it and miles are easily accessible on their mobile tool and they no longer have to wait for a set or a certain time earlier than they can. enjoy or use any e-book or various virtual resources. You can even enjoy 24-hour mobile and access audiobooks, magazines, podcasts or other library material at your convenience without fearing approximately library opening or last hour. In general, it is often difficult to fully preserve or store equipment, including DVDs or CDs, for a long time without worrying about breakage or destruction.

Benefits and learning's

With the advent of a virtual library, you can store your assets both in the Google cloud and in iCloud, making them available to all existing and future readers. As a reader or student, you choose a virtual library over a traditional library because the maximum management software of virtual libraries improves the communication between readers and administrators in real time, which gives space to the reader to access more information about ee. e-book and you no longer need to be a physical gift to ask because you can effortlessly communicate with managers online. The virtual library has changed the position of the average librarian from one who manually prepares and processes all library sports, including tracking and indexing, to one who uses an automated device with complete library management software. automate all sports in the library. This will undoubtedly make library management easier and resources and information more accessible to readers.

Conclusion

This literature evaluate enables library specialists and librarians approximately the era utilized by libraries and additionally the limitations confronted through them. Furthermore, it increases consciousness of the demanding situations those new technology poses each for Volume 15, Issue 1, Jan-March – 2025 Special Issue 1
